Let's make the binder first.

Binder Spine & Tab Sheet · getting started

WHO THIS SHEET IS FOR

Anyone facing a move who would like it to feel a little calmer. Everything here is free, prints on plain letter paper, works offline, and asks nothing back — no account, no email, no app. Print it, tape it, scribble on it. That is the whole requirement.

WHAT YOU NEED

- Any sturdy 3-ring binder (2 inch or wider feels calm, not cramped)
- A pair of scissors and a pen
- Tape or glue if the spine insert is floppy

HOW TO USE IT

1. Print this PDF, then cut out the spine strip that matches your binder width.
2. Write your move month and family name in the blanks, and slide the strip into the outside pocket of your binder spine.
3. Cut the eight tabs along the dashed lines and hole-punch the wide end.
4. File your sheets behind the matching tabs, and pencil in the tab key below so anyone in the house can find things.

One warm tip: A binder you can find in the dark beats a pretty one you never open. Crayons, quarters for carts, and a pen live up front in the pocket.
