Someday a box just says 'bedroom' and you believe it.

Room-by-Room Box Labels · getting started

WHO THIS SHEET IS FOR

Anyone facing a move who would like it to feel a little calmer. Everything here is free, prints on plain letter paper, works offline, and asks nothing back — no account, no email, no app. Print it, tape it, scribble on it. That is the whole requirement.

WHAT YOU NEED

- This printout, a pen, and tape
- A marker that reads well in dim hallways (chisel tip is kind on tired eyes)

HOW TO USE IT

1. Print at 100 percent scale (no fit-to-page shrinking, so the numbers stay roomy).
2. Fill in the room name and the box number before taping, not after.
3. Tape a label on the top AND on the side of each box, so it reads from any angle it might be stacked.
4. Circle the priority: 3 means this gets unpacked in week one, 1 means it can ride in the truck a long while.

One warm tip: Write the room on the box in the same big letters every time. Future-you, carrying a box and holding a door with one knee, will be grateful.
