Numbers in pencil buy you weeks of confidence.

New-Home Paint & Dims Grid · getting started

WHO THIS SHEET IS FOR

Anyone facing a move who would like it to feel a little calmer. Everything here is free, prints on plain letter paper, works offline, and asks nothing back — no account, no email, no app. Print it, tape it, scribble on it. That is the whole requirement.

WHAT YOU NEED

- A tape measure and something to write with
- Paint chips taped during your first visit, if you already have them

HOW TO USE IT

1. Walk the empty home room by room. Measure length and width, then jot the ceiling height you saw or asked for.
2. On the dims grid, write window sizes too. Blinds and curtains get ordered faster than paint dries.
3. On the paint grid, tape or write the color name, the finish (eggshell hides handprints best), and the gallons estimate.
4. Buy one sample quart per room and paint a poster-board swatch. Live with it for a day before committing five gallons.

One warm tip: Measure the stairs and the widest doorframe once and tape that number to the binder. It decides which couch goes through which door.

Companion to the *Moving Without Meltdown* guide · this sheet is part of the Calm Move Kit, a set of free printables for a peaceful household move.

CALM MOVE KIT

Paint Grid

One row per room. Tape the chip to the row and live with a sample before buying gallons.

ROOM	COLOR NAME	BRAND	FINISH	SAMPLE?	GALLONS	COST
Living room			egg / satin	☐		
Kitchen			egg / satin	☐		
Dining				☐		
Hall / entry				☐		
Primary bedroom				☐		
Bedroom 2				☐		
Bedroom 3				☐		
Bathroom			bath / enamel	☐		
Ceiling color			flat	☐		
Trim (whole house)			semi-gloss	☐		

SHOPPING SWEEP (BEFORE THE TRUCK LEAVES THE PAINT STORE)	✓
Primer (bear in mind new drywall / dark colors)	☐
Roller covers, brushes, painters tape, trays	☐
Drop cloth big enough to cover the biggest room	☐

CALM MOVE KIT

Dims Grid

Measure length × width, note the ceiling, and the windows that need window treatments.

ROOM	LENGTH	WIDTH	CEILING	WINDOWS (W × H EACH)	NOTES
Living room					
Kitchen					
Dining					
Primary bedroom					
Bedroom 2					
Bedroom 3					
Bathroom					
Oven & fridge fit?	Old-home appliance sizes (W × D × H): oven _____ fridge _____ vs. new-home cutouts: oven _____ fridge _____				
NEVER-KNOW ROWS	Widest doorway _____ Stairwell width & turn _____ Washer/dryer hookups (gas? 220v?) _____				

Two numbers to tape inside the binder pocket: the widest door they must walk through, and the height of the garage or basement ceiling. Every furniture argument ends right there.
