This one page prevents the no-hot-water surprise.

Utility Transfer Calendar · getting started

WHO THIS SHEET IS FOR

Anyone facing a move who would like it to feel a little calmer. Everything here is free, prints on plain letter paper, works offline, and asks nothing back — no account, no email, no app. Print it, tape it, scribble on it. That is the whole requirement.

WHAT YOU NEED

- Your current utility account numbers
- The lease or closing date, or a best guess while you wait

HOW TO USE IT

1. On the transfer checklist, write the shut-off date at the OLD home and the turn-on date at the NEW home for each line.
2. Call two weeks ahead if you can. Older water and trash companies often bill in cycles and cannot start mid-cycle.
3. When a company confirms, copy the confirmation number into the box and mark the checkbox. That number is your umbrella on a rainy day.
4. On the month grid, write shut-offs with one symbol and turn-ons with another, so overlaps and gaps pop out at one glance.

One warm tip: Book the internet turn-on first. It is the slowest company in every town, and it schedules by availability, not by your welcome.

Companion to the *Moving Without Meltdown* guide · this sheet is part of the Calm Move Kit, a set of free printables for a peaceful household move.

CALM MOVE KIT

Utility Transfer Checklist

One line per company. Shut-off at the old home, turn-on at the new home, and a confirmation number every time.

SERVICE	SHUT-OFF (OLD HOME)	TURN-ON (NEW HOME)	ACCOUNT #	CONFIRMATION #	DONE
Internet (book first!)	___/___	___/___			☐
Electric	___/___	___/___			☐
Natural gas	___/___	___/___			☐
Water & sewer	___/___	___/___			☐
Trash & recycling	___/___	___/___			☐
Cell phone	___/___	___/___			☐
Streaming / TV	___/___	___/___			☐
Propane / fuel	___/___	___/___			☐
H OA / building mgmt	___/___	___/___			☐
Security system	___/___	___/___			☐
Move-out deposit & final bill notes	Refund expected: $ _____ on: ___/___ where mailed? _____				

The two-call rule: call each company once before the move to schedule, ask for a confirmation number, and write it down — then one follow-up call on move-in week for anything still quiet. Quiet is normal; a zero-balance surprise is not.

CALM MOVE KIT

Transfer Calendar

Write shut-offs with an “off” mark and turn-ons with an “on” mark. Gaps and overlaps show up at one glance.

SU	MO	TU	WE	TH	FR	SA

LEGEND	NOTE
☐ shut-off at old home	who / which service, penciled per day
☐ turn-on at new home	same day, opposite mark, so both stay visible
☐ move-in / move-out day	circle it twice; it bends every schedule around it

Glance test: put a finger on the move date. Count the “off” marks before it and the “on” marks after it. If your lights are dark a week on either side, the calendar just earned its keep.
